DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10 September 2007 has been entered.

Allowable Subject Matter

2. Claims 1-8, 11-22 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The best prior art of record to Ashizawa et al. (US 6,976,635) discloses an IC card storing attribution information about application stored therein,

Khare et al. ("XML: a door to automated Web applications", Internet Computing, IEEE, Volume 1, Issue 4, July-Aug. 1997 Page(s), 78 – 87) discloses a method of presenting XML document containing attribute information/tags,

Reynar et al. (US 2002/0035581) discloses application program interface providing labeling information during creation of a document and user actions based on semantic label applied to labeling information.

However, Ashizawa et al., Khare et al., and Reynar et al. taken alone or in combination with other references fail to particularly teach that the method and a portable data carrier comprising reading in of specification data describe the file system in a semantic label, a processor interpreting the read-in specification data, and installing

the file system according to the interpreted specification data in a memory of the portable data carrier as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
